

Notice of Intent to Issue a Request for Qualifications

CALIFORNIA DEPARTMENT OF TRANSPORTATION

Project: Presidio Parkway Project (the “Project”)

Major Work:

- Set forth in the Request for Qualifications (“RFQ”)

Project Description:

California Department of Transportation (“Caltrans”) and the San Francisco County Transportation Authority (SFCTA) are the “Project Sponsors” for this public-private partnership and are responsible for the funding and planning of the Project. The Project Sponsors anticipate that the Project will consist of replacing portions of the existing Doyle Drive facilities on Route 101 in the City of San Francisco, which serves as the south access to the Golden Gate Bridge, along the northern edge of the City of San Francisco, with a new six-lane parkway-type roadway and a southbound auxiliary lane, between the Park Presidio Interchange and the new Presidio access at Girard Road. The Project will also include operating and maintaining all of the replaced Doyle Drive facilities.

The sponsors seek to enter into a comprehensive development lease agreement with a private party (the “Developer”) to design, build, finance, operate and maintain the Project. Caltrans expects to compensate the Developer through an Availability Payment mechanism that may include other components described in the RFQ. Further Project information is available at www.presidioparkway.org

The Project Sponsors reserve the right to change the scope of the Project and the approach to the delivery and funding of the Project in their sole discretion.

Notice of Intent to Issue:

Sponsors intend to issue the RFQ on or after February 1, 2010.

The RFQ will be available on the following website: www.publicinfrastructure.ca.gov

Qualification Requirements:

- Set forth in the RFQ

Program Manager: Kome Ajise
